{Sub:- Suggestion letter On Past Dated 29th July 2009 Regd.}

Respected Sir/Madam,

For the long way in social service Navjivan Foundation by its tremendous effort reach near every part of the world's not only near non profit organization working in their national and international level and in the same time near the different high officials in different countries and we have received highly appreciate from them (<http://www.navjivanfoundation.org/Message.aspx>). This organization has reached near the Indian Embassies in different part of the world on its work. This organization give importance in India on awareness (<http://www.navjivanfoundation.org/Awarness.aspx>) and all the papers in Hindi language in separate pdf file at present yours may read it by using translator of google and in this connection high officials in India, Embassies in India and the different ministries of state and the center, Chief Ministers, Governors, President, Prime Ministers, Central Cabinet Ministers appreciate us. Through this letter we request to read our complete website (<http://www.navjivanfoundation.org>).

More over this social service non profit organization is trying to work in national as well as international level on the Human Rights & Public grievances with good awareness to the public for more than years and in India it has large numbers of volunteers. This volunteers' members involving in this noble cause are across the country with good faith. Please we request you for once notice and in this connection we are giving our link (<http://www.navjivanfoundation.org/Volunteers.aspx>).

So as real public representative this organization bring the difficulties of the general people (by its volunteers) stay in different part of this democratic countries and try to reach near the central Govt. of India or the state Govt. or as the case may be and request for give importance on the solution and we always try to send these types of letter called suggestion before our Independence day or Republic day in every year. In this connection we have suggestion to Hon'ble President of India and copy to the various departments on dated 29th July 2009 but no proper steps have been taken. Please we invite to see this letter copy under our website link <http://www.navjivanfoundation.org/Suggestion.aspx> under suggestion 1.

So like this when the people of India are under the real burden of market inflation (raising price) our Govt. record shows that the Indian people are not in any problem and invite the common wealth game. So could we ask to the Govt. when other developed countries refused for game in their countries, how our Govt. invite this and the second question after this game would the Indian people not face much more market inflation (raising price) and the third things Indian media has been shows the corruption and the disturbance among the committee controlling this game in front of people. So what will the future of our country people!

Our country is not solving our food problem with in this inflation (raising price) period and the necessary consumable food like rice, wheat and specially dal, sugar price is high to high, so how we solve the future problem after the game. Ultimately the general people of India decided that they will press under more to more inflation (raising price) after this game. This means it does not indicate that the people of India have no interest on the common wealth game rather it is the proud ness for our country all over the world but it is not the proper time to do so.

The major problem is when the corns are damaging under FCI go down and the real people struggling for food (we have all stated in our past letter on dated 29th July 2009) how the people will believe at future on their Govt. that they are safe under their Govt.!

We again request to see our past letter and decide our present with we need a clear letter about details from separately all the departments quickly.

With Regards,

Shashi Kanta Panda

SHASHI KANTA PANDA
(President)
