{Sub:- Suggestion}

Sir/Madam,

Navjivan Foundation well known to you for its grievances and suggestion for long period and this organization has been appreciated by its works and suggestion from high officials in India and abroad and some state Governors and from some ministries. To see the present market situation and inflation of our country the organization request to the concern department through this application for their decision and suggestion. Because the living standard of general people gradually diminishing. So in this typical position such organization again request to analysis in the following points.

A. BANK INTEREST

This organization suggests on reducing the bank rate on loan. So the more and more public take interest from this benefit and we request to Hon'ble RBI Governor please once consider on this point.

B. OPEN MOVEABLE KENDRIYA BHANDAR & FCI HELP

In this time to see the market condition it realizes that the business man stocks more for long time to get more profit .So rate of dry food like *Dal, Chawal, Rajma, Chana* etc. raise day by day and to control this problem if our Govt. open moveable Kendriya Bhandar in each area, ultimately the people will get more benefit because the seventy eighty percent of Indian people are in

marginal level and they depend upon for their daily food on Rice and Dal. So we request to the department with considering the rate please open moveable Kendriya Bhandar in each area and FCI can help in this matter.

C. RURAL DEVELOPMENT FUND MISS USE

In every year of our Budget our Govt. declaration and give importance on rural development and this organization appreciate the policy of Govt. but we are sorry to say that the declaration amount not reach near the general people under **NAREGA**.

In **GRAMIN INDIRA AWAAS YOJANA** the case found that the people on real sense have in poor condition not receive the said amount approved for him/her and the man having sound wealth acquire this fund and on this project sanction funds distributed from central officers to village Panchayat Chairman /word members and at last the pen and papers shows all but in real sense no amount reached near poor rural people.

Like this Govt. planning on **AGAN WADI** this programme is so good to listen but the food provide by Govt. sold in market and the general people using this material for the animal food. We think the Govt. has taken decision to develop the education and strong the student mentally and physically with attract on education but more place in India have no pupils only pen and papers shows it and the food material sells in market.

To inspection like these system our Govt. has introduce survey committee through monitoring committee and it is miracle that the survey result also support the case not done.

In social development work like **PWD, CPWD** etc. the work done by them are purely separate from the record like as the record shows "A" the quality of material and the work performed by "C" quality of material. So as a result after few days the position of the work changes to like pre condition and again to construct of that work again amount sanctioned. So as a result by this type of work the economy condition may fall and in this connection neither we progress for separate work nor perform the exact work efficiently and in this matter the engineers are responsible for these corruption.

D. POLITICAL PARTIES

In our country it should be two political parties one is ruling parties and another is opposition parties and no other parties should be. Because due to several political parties some problem arises like as terrorism and regional/religion feeling and in another side due to continuous election the economic standard of the country diminishing but any one want for

independent contest no headache for that matter. So we request to not giving permission for local or other parties except two parties.

So in all this matter we request for your strong support to public and an honestly presidential committee should form with some members of Human Rights to handle this situation.

“WISHING FOR INDEPENDENCE DAY”

With Regards,

O ————— C

SASHI KANTA PANDA
(President)
