## PHILOSOPHY :

As the Wheel of time is moving forward, the human society is embracing the modernization Industrialization and Globalisation. Other than the positive developmental aspects of these changing factors, as consequence, the solidarity of the society is loosening which results in growing human right violations and cases of grievances. Of course Indian government and its agencies have been trying to provide justice to the victims but as the known factor the ghost of corruption interferes in delivering justice to the Indian people. NAVJIVAN FOUNDATION was started following the philosophical wards "SERVICE TO THE MANKIND..... SERVICE TO GOD"

It is not attempting to work parallel to the government and its agencies, as a unique voluntary body it liaison between the people and government. The definition of "victim" according the NAVJIVAN FOUNDATION, the persons to whom justice is denied. NAVJIVAN (NET LIFE) means instilling new spirit of hope among the people of India.

## OBJECTIVE :

To receive grievances from the person they are liable to justice but latter is denied.

To provide counseling service to the people regarding social welfare matters.

To promote human rights and social justice by various means.

To Organize awareness camps on women empowerment, child welfare, HIV-AIDS, and other disease, adult education, senior citizen development, youth development, general activities like no begging and no alms, awareness on traffic rule, use of ambulance, making SHG, family planning, vocational training programmes on religion and minority issues, cultural issues and so on.

"Since my childhood I have been witnessing numerous human right violations and cases of grievances, injustice to the people due to various reasons through I was born in rural India. In rural area most of the people are unable to get justice due to suppression of poverty and corruption. In the largest democratic country INDIA the problem is lack of communication between people and Government.

Secondary people of rural have no knowledge on Government policy, so I decided to start such kind of organisation which work liaison between people and Government. NAVJIVAN FOUNDATION is such kind of organisation established in 16th september 2003 working above work with supporting some youth social worker, not limiting the grievances and awareness camps only; we widen our scope to all other important section. Moreover our purpose is to develop Indian economy, develop the thinking of all Indian and see our country developed".
