Introduction

Since independent rural development vis-à-vis poverty alleviation has been considered as a major challenge to our country. However rural development is an integrated process which includes social, political & economic development of the poorer sections. However Navjivan Foundation tied of many loose ends that persisted during this year. By aiming hundred percent basic facilities, education guarantee, empowerment through economic up gradation, public health, food security for all, Navjivan Foundation thus want to bring a tremendous adjacent interior villages. Details of various activities of last year discussed separately and those are follows:-

On Economical Development this Foundation this year promote and foster activities such as all education, medical health, medicine, family planning, nutrition to children, child welfare and programme to help old people with some financial help and development activities related to the above field. The organization has incurred a remarkable amount towards this account during the year. Monetary help to the poor fathers in their Daughter's marriage. Monetary help in burial works to such persons who are not able to afford the same, necessary new cloths distributed among the poorest of the poor at the time of **National** festival.

Another event full year for Navjivan Foundation has gone through. Since 12 years the organization has been working sincerely within its limited resources by taking up challenges and aiming to take rural society a better place to live in and it could happen only because of people's participate support and co-operation initial activities were to organize village meetings conduct leadership training for the village youths and women group conduct eye camp. Village health and sanitation awareness camps, various literacy and cultural activities in the target area of different districts of Odisha. Our long social contact with communities has helped us in introspecting socio-economic issues of the day.

Social Matter

SOCILA ASSISTANCE:-The awareness camps in respect of fields **health & blood donation, AIDS & allied diseases, sports, youth development (minimrathan) ,increasing Drug addiction among youth, justice, Award, Swacha Bharat Avijan, education for ladies empowerment, Dropping education of female child, Child Labour, income generated programme, food security, sanitation watershed, women and child rights protection & development, education development ,Plantation, Environment, Disaster ,pollution (air, water, light, music, earth etc. with manmade)** etc. has been conducted at various remote villagers to create an awareness among the very poor rural peoples living remote villages of Odisha.

FINANCIAL HELP

CLEAN WATER SUPPLY

SWACHHA BHARAT AVIJAN

MINIMARATHAN

SPORTS & MEDICAL HELP

Navjivan Foundation as DRC

Navjivan Foundation also work as a development training and resource centre successfully conducting different training programme, workshops, seminar of different government and non government organization which helps in expertising and capacity building of our staff in various fields health & blood donation, sports, youth development (minimrathan) , justice, Swacha Bharat Avijan, education for ladies empowerment, income generated programme, food security, sanitation watershed, women and child rights protection & development, education development ,Plantation, Environment, Disaster etc. our

staffs attend programme of different NGO's as resource persons. Besides all these, staffs also undergo training within our outside states.

Navjivan Foundation National institute of social, Medical & Legal work

Navjivan Foundation National institute of **Social, Medical, Legal & Miscellaneous** work and reformative through on human affairs popularity called as **Four In One Clinic** completes decades. It is towards its mission to identify, mobilize the local resources for sustainability by enabling the marginalized and weaker sections of the society in the process of development. The committed efforts sincere and systematic intervention strengthened the capability through improved knowledge and skill of the poor and downtrodden.

The poorest, who inevitable to do not have resources or limited resources are yet to meet their basic needs. It addresses such type of issue and mechanism to ensure a better livelihood. During its decade long involvement with the community **Four In One Clinic** created a conducive environment and attitudinal changes among the people that empowered to take constructive steps in their struggles for livelihood.

However regular interactions and analysis of their standard of living continued and appropriate inputs were provided by our professionals to ensure financial sustainability for strengthening food security and livelihood. Learning and shearing of experience among the people as well as the colleagues lead the organization towards achieving goal. In addition **Four In One Clinic** also forges intensified struggles against social injustice and exploitation.

Medical Help

MEDICAL ASSISTANCE:- On the side of well physic of the rural poor people, on where no medical facilities for long distance organization has arranged health check up camps, free distribution of medicine , first aid training & blood donation camps . This year organization also arranged several free health check-up camps & distributing medicine self & with some other social service organization co-friendship like International Blood Bank for the people irrespective of age & sex living rural areas and are not able to check-up their health due to poverty with free distribution of various required medicines. It also arranged First-aid training camps in different areas for rural female youths especially belonging to SC, ST, OBC & females categories to give them a scientific out look at the time of sudden accident. At the time of blood donation camp organization has distribute certificates to donors.

MEDICAL HELP

Basic Community health

More over Health care for all is the prime concern of Navjivan's strategies. So this year organization conducted some health camps and two swasthya meals where patients were given primary health care services and were referred to hospital. As the project areas prone to malaria, blood slides were collected out of which were found malaria positive, were given medicines by organization at free of cost. To prevent population growth and to make the young couple aware of the fact that 'small family happy family', women were motivated and referred to for sterilization.

Immunization

Regular immunization is conducted in co-operation of medical staff and women group in project areas at regular intervals throughout the year. The active participation of women in our programme of children complete their first year immunization doses and pregnant received TT injection and iron tablets to check anemia during pregnancy.

Eligible couple training on sexual health and RCH

Couple had been identified from three districts of Odisha Bhadrakh, Balasore, Jajpur, Cuttack, Kendrapara. Some of the couple could not attend the training out of shame and social stigma. So for effective implementation of the programme, Foundation had organized the training separately for both male and female. So that they would not hesitate in discussing and sharing their problems. It was seen that women were more responded and actively participated than their male counterparts especially on birth spacing. Use of contraceptive etc.

Training to village health cadres

Organization has arranged SHG group for the meeting village rural. Two members from each SHG has been selected from every village and then given training to them by Navjivan on primary health care so that later on they would not only make aware the people about basic health care but also provide free medicines such as ORS, Chioroquine tablets through drug distribution centers at the time of need.

HIV/AIDS issue addressing

As prevention is the only solution to stop this deadly disease. In order to aware people about its fury, Navjivan had organized district-level workshop, seminar, group discussion on Aids awareness involving SHG leaders, school/college adolescent and youth. People from all NGO's participated in the above said discussion. In addition to AIDs prevention programme condom have been kept in all village level DDC. Besides all these trainings were also imparted to youth leaders, PRI members, social health workers, NMs and TBAs so that they all can aware rural people about this.

Rural Sanitation Campaign

Village meeting have been organized by Navjivan in Dhusuri GPs on sanitation awareness. In all 300 to more village committees are formed in the said GPs for effective implementation of sanitation programme. In this campaigning each BPL families collected their contribution after proper identification through the village committee for construction of individual House Hold Latrine. The village committee collect the raw material like sand, chips, iron ring, can man power etc. to make latrine under the guidance of Navjivan volunteers. Besides all these, Navjivan motivate BPL members to contribute money and also aware the APL members the utility of using latrine. In the same time organization apply for this work to the govt. & if fund relies can use for these people.

Legal Assistance

LEGAL ASSISTANCE:- The great fight of this year of organization for the state of Bihar the district of Motihari. Some Illegal Persons with political helping hand occupied public property & released & demolished by order of district collector & local Tahasildar ,after long struggle of organization & proper leading by local volunteer Mr. Ramprit Prasad, In The State Of Bihar , District Of Motihari, Under Police Station Sagauli & Village Sagaon Kothi On The Month Of December 2014.This property used by the public on the time of CHHAT PUJA of hindu & TAZIA for the muslim.

The second important case in Odisha corruption made in CT (National Council For Teacher Education) training School Bagudi & Tudigarhia education & the poor students suffered. **The case likely the rich family belong students creating more corruption in education for taking admission under govt. educational institutions by using sports quota (with showing two academic carrier in the same year)** and we have acknowledged that some rich family (general categories) students have been taking admission under Govt. secondary Training School Bagudi (CT Training), Bagudi, Soro, Distt. Balasore, Odisha-756045 by using sports quota and the **certificates are relished from Uttar Pradesh and another is Tudigarhia, Soro, Balasore, Odisha.**

The students in a same academic carrier year where continuing their course in regular under higher secondary in Odisha how in the same year achieve certificates of sports from so distance in Uttar Pradesh. So Central Vigilance has requested for the students of poor, SC, ST, OBC from this by proper inquiry & with anticipating the principal should have proper knowledge on this because on taking admission the documents may or may not verified this is depend upon your inspection.

NAVJIVAN FOUNDATION ODISHASTATE AWARD

CERTIFICATE ISSUED BY NAVJIVAN FOUNDATION DURATION OF CAMPS

Lobby & Advocacy

Two workshops on lobby and advocacy were conducted in this year. The first workshop was held at Dham Nagar on empowering women through socio-economic initiatives with an aim to reduce gender disparity and check female foeticide. Altogether women joined from various SHGs in the workshop. Discussions were held for selection of SHGs for involvement in SGSY scheme and also involvement of SHG leaders in gram panchayat level development work.

The second workshop was held at Jajpur district to discuss on "Manabi Sarankhan Abhiyan" in which women were joined from different SHGs. Empowerment of women through SHGs and initiatives that should be taken to stop female foeticide was major policy level discussion.

Legal Counseling

Legal Counseling to women in distress is being taken up by Navjivan at its office, in Delhi, Odisha four place & in U.P. on each Saturday in which women from different SHGs for counseling practicing lawyers are voluntarily extending their services as legal counselor. The women victims exchange their views and sought legal help on their personal matters such as marriage, dowry, divorce and right on property & public grievances etc. Frustration, intolerance in boy resulting in sexual violence, exploitation & discrimination, legal property dispute, and finally inadequate legal protection etc and in order to eliminate all these barriers. He put emphasis in reduction of socio-economic inequalities improved access to education community participation etc.

Right to Information Cell

Right to information (RTI) has become a key leading to clean governance. Day by day people as well as GOVT depts. Are becoming sensitive to the act. As a follow up to the RTI camp 2008 supported by CIC we opened a separate cell on RTI in order to facilitate people to follow right procedures to get information.

Girl child right protection

Since a long time Navjivan Foundation has been working for the welfare of the poor girl child and protection of their rights not in Odisha in total among girls children to restore their rights and dignity. These balika mandals check discrimination, sexual abuse and both physical & mental harassment meted out to them from time to time. **In this connection we have not get co-operation from Jajpur District. Collector.**

Campaign against female feticide and for dignity of girl child

Considering the global status report, the situation in India is very much alarming relating to sex ratio. Adding to that the situation of Odisha and Bhadrakh, Balasore, Jajpur, Mayurbhanja, Kendrapara & Cuttack districts are much worse than that of national status. This trend is mostly increasing in area of high literacy on our statics. This need sensitizing the population at large.

In order to increase community involvement for arresting the trend, Navjivan Foundation is taking all care to sensitive different stake holders through discussions in women federation meeting arranging workshops at the different blocks and gram panchayats level. During the reporting year we have organized five sensitization meetings at some panchayat level.

Campaign Against Domestic Violence Solve By Counseling & Panchayat

Domestic violence occurs very often in many families. Some people knowingly doing and some unconsciously. Even the male as well as some female members of the families do not consider the dignity of one women in the family. It is as if year long process. With the above scenario, Navjivan Foundation considered sensitizing women folk as well as the male on what domestic violence is how it affects women's lives and to what extent. Even the present legislation is being discussed among them. More particularly, in the meetings of women SHG federations and farmer's club meetings the issue is being discussed as it has been integrated with all our community level activities. As a result, five federations are now taking up issues of domestic violence and solving at the gram panchayat level.

Child Labour Prohibition and Social Mobilization-Recent In Delhi

In collaboration with CACL, Orissa Navjivan has organized a two day training programme for village level key leader on child labour problems causes and strategy for prevention of child labour .Village level committee meetings were also organized to motivate the rural community for mainstreaming child labour to formal school. Hence. Child labour has been stopped to a great extent after Navjivan's intervention and training. After being aware the foregone issue people are now sending their children to primary schools instead of forcing them for earning through labour specially in Mayurbhanja district we have worked more . Besides these, Navjivan also promoted strategic collaboration and rapport building with other network and more specifically with the government departments and other stakeholders to ensure partnership in child right campaign and recent in Delhi.

Consumer protection - sensitization on Rights & Duties

Consumer protection – sensitization on Rights & Duties

As a part of economic development and protection of rural people from exploitation, we have taken up initiative to sensitise the people on consumer rights and duties. For this, we have adopted a principle of creating peer educators in the village level who can ventilate the message to a large number of people. For this purpose, we have adopted three high school in Nabaghanpur, Machhipada & Bhatasahi G.P area of Nayagarh district and sensitized & motivated the school children to know their rights as well as to et others to now their consumer rights and duties.

Handicrafts

Navjivan Foundation at present time focusing these type of work and the preparing riverside wear on dress material in silk & cotton along with reprene skit ,coated jackets for ladies & kids like as with suitable design and house hold crafts etc. which is both side wear on in attachment by its some expert staffs and this selling benefit is going for the benefit of general & helpless people as this is a social service organization working for more than years without any funding of central or state or any agencies where as its volunteer's straight is its ability.

This organization not begging for the social service rather its efficient social worker by their skill & ability made material & earn money go to for their family along with social service.

HANDICRAFTS

Education Development

Education Information/Guidance Centre In Different Schools In Odisha:- This organization has tried to develop of education standard and especially promote to ladies education & it continue the some centre in the schools of Odisha during the year as well, a large number of school children has been benefited from this to get the information about courses available in different awareness , current affairs, sports, courses of different universities, conditions of admission, cost, scholarship or like education assistances available etc Govt. service Exam etc.

Financial Assistance In Order To Furthering Education:- The organization also extended its hand towards furthering education to them who are very needy but meritorious and are not able to extend their "Academic height" out of their own financial capacity. Books, dress, Prizes subsidy to the students belonging to B.P.L families & girls child & the students especially belonging obtained outstanding result in their school leaving / high school leaving examinations, degree level and post graduate level examination in order to uplift their interest in modern as well as moral education.

M.S.M.E Training Camps:- In this year organization has aware in different areas M.S.M.E., Govt. of India, awareness & arranger 10 training camps of 95 days duration for the unemployed youths who have had their academic education minimum 8th class level. After this training their chance of getting jobs as well as starting small / medium size own enterprises with Govt. subsidized finance increased. This is not supported by any M.S.M.E officers or institute after several time connect with them. Our president of main office has qualified M.S.M.E course from N.S.I.C. Delhi & with the help of him all programme was arranged.

Tailoring & Sewing Works Training For Women, SC, ST, OBC, Physical Handicapped:- This year the arrangement of tailoring training & various sewing works training has been organized for the poor & distressed physical handicapped person in order to live with dignity and a minimum prestigious economic status. As a result we have formed some dress for the selling.

Navjivan Foundation Missionary Institute: - This organization is catering Educational information centre for the youths and students especially for SC, ST, and OBC & LADIES community throughout the year. The coaching and training centre for the various Govt. service-examinees (**viz. Clerical, Bank, I.A.S, I.P.S, I.F.S, & Allied examinations**) has been conducted throughout the year free of cost for the needy and youth job-seekers and at very nominal cost for the others. It also organized short term training

programme for the benefit of the educated youths to get jobs or to establish small / medium industrial unit. This programme was in different areas of the State of Odisha.

Tailoring Training For Women: - In order to uplift the hidden skills of the poor rural women & girls, our society has taken initiative to organize such type of tailoring training camps. As to that the efficiency of sewing is to be established and so that the trained folk may able to live with a minium prestigious economic status.

Humanitarian Assistance

Humanitarian Assistance:- The organization conducted relief camps at various places in and around Bhadrakh district for the flood victims and not only providing free food and packaged water but also providing safe-shelters also.

It also provided free medical and allied assistance to the Palline disaster of Odisha.

Health & Sports:- The govt. & private doctors committee's co-operation the several medical health camps has been conducted and first-aid training camps for the male ,female ,youths etc. in different areas on where proper medical facilities are un available.

Awareness Camp:- The awareness camps on anti-dowry, child-marriage, sale of female child, drug-addiction, health & blood donation, AIDS & allied diseases, sports, youth development (minimrathan) , increasing Drug addiction among youth, justice, Award, Swacha Bharat Avijan, education for ladies empowerment, Dropping education of female child, Child Labour, income generated programme, food security, sanitation watershed, women and child rights protection & development, education development ,Plantation, Environment, Disaster ,pollution (air, water, light, music, earth etc. with manmade) etc._ among youths etc issues has been conducted at various remote villages to aware the very poor uneducated rural people about its evils.

Self Help Group

SHG Promotion

Navjivan Foundation Four In One Clinic has former some self help groups to improve the socio-economic status of poor backward women through various income generating activities in different states. At first the women were motivated to form their own thrift and credit group. Now they trend for avail bank loan to continue their IGP. Throughout the period the women SHGs are given various training to enhance their entrepreneur skills.

They are also given exposure venture to gain practical knowledge on different IGA. We are trying to help the group to reach beneficiary to entrepreneur status through different capacity building programmes.

Formation of Federation

Initially the women SHGs appeared to be satisfied with coming together having meeting saving and credit but now SHGs have become a platform for sorting out their problem and for seeking strategies of strengthening the socio-economic status of their locality through federation. **Four In One Clinic** has formed working in GP for social mobilization. Through these federations the members acquired greater awareness of their rights and duties in the society. This federation has become an instrument for women to fight against all kind of discrimination such as ill treatment, physical, mental and sexual harassment and atrocity like rape, wife beating and battering, eve teasing, murder due to dowry and so on. Besides all these, federations are taking up Govt. schemes like road making, pond making, bridge making and erection of small buildings.

Apart that, federation also assist village folk to get old age pension, indira awas yojana benefit of Annapurna yojana and others scheme of Govt. it also assist Govt. Health workers to promote good health in villages. Federation members attend every village meeting and discuss existing problems of villages with sarapancha and ward members.

This SHG and federation come under (Women empowerment Through Self Help Group) in which **Four In One Clinic** workers as a self help promoting institute.

Initiatives for formation of self help co-operatives

An initiative has been taken by **Four In One Clinic** to form self help co-operatives in gram panchayat of block level. It has been decided that federation in GP level to be converted into such co-operative and accordingly a women self help co-operative has been registered in the name with some primary members & the said co-operative is functioning well with socio-economic activities.

Rural Women Entrepreneurship Promotion

Rural Women Entrepreneurship Promotion

For the successful implementation of women empowerment project. **Four In One Clinic** has been given training to different women SHGs on capacity building for different entrepreneurial skills, trade identification marketing concept as well as enterprise assessment as per the availability of local resources as a result of which the women SHGs can active in village level & block level.

Some of them have already started. Different micro enterprises such as badi making, turmeric powder making, raggy powder making, mung dal processing groundnut packaging, til ladu making, minor forest product processing etc.

These micro enterprises make them self-independent women marching towards progress with lot of vigor vitality pride and honor. Moreover these women entrepreneur are now-a-days becoming successful because they consider themselves more as entrepreneur rather than traditional housewife. Thus, justifying the saying “**self help is best help**” & “**god help those who help themselves**”.

Special SGSY

Some groups of Four In One Clinic have already sanctioned special SGSY loan from bank to continue their income generating activities by establishing a dal processing unit in Dhusuri GP in the district of

Bhadrakh , Odisha & Local market association has taken the responsibility in selling the usufructs of the products.

Prevention of women trafficking

Prevention of women trafficking

It is a regular phenomenon in Balasore, Bhadrakh, Jajpur, Cuttack, Kendrapara, Mayurbhanj district rural villages in Odisha for last a decades that adolescents girl and women are being trafficked to other states i.e. Madhya Pradesh (Jhansi area) and Utter Pradesh (Firozabad)alluring them of false marriage and employment opportunities.

Taking the advantage of their poverty, illiteracy and ignorance the pimp are active in the districts to pick up the women and adolescents and they are being forced there for flesh trade. Realizing seriously **Four In One Clinic** intervened and started dialogue with district administration, police personnel, state commission for women, Orissa and highlighted the matter all over Orissa. A district high level committee was formed to check trafficking where **Four In One Clinic** was a member. **Four In One Clinic** has also formed some mahila mandals in gram panchayat & block level to stop this illegal trafficking.

Now, after **Four In One Clinic**'s intervention, it has been checked to a great extent. Till now no case of trafficking is reported in the said GP which proves **Four In One Clinic**'s genuine and humanitarian concern for the cause of local people.

Programme for Tribal SOCIO – Economic Development

Programme for Tribal SOCIO – Economic Development

Since inception **Four In One Clinic** has been committed for socio economic development of the tribal's and the schedule cast community. The major focuses of activities are being concentrated for them. The programme undertaken in district is Mayurbhanj & future ambition for Keonjhar, Kalahandi, koraput, Balangiri, Sundargarh, Sambalpur etc. are specifically aimed at their development.

Wadi Project – considering the above NABARD, regional office at Bhubaneswar has not selected us as project implementing agency for implementation of WADI even we request them. The Project was for 1000 tribal families for a period of 7 years. The programme is being supported for **Tribal Development Fund of NABARD**. This programme was mostly meant for development of fruit orchard (Mango & Cashew) on the own field of some tribal families and land less families for others potential economic activities.

WATERSHED PROJECT – In addition to that NABARD has considered for supporting to implement WATERSHED development programme only the tribal families will be benefited from this.

Environment

Environment

Four In One Clinic organize regular environmental awareness camp throughout the year in all the target villagers to make aware the community about the usefulness of clean and green environment like preservation & protection of forests, ecology balance curbing soil erosion through plantation etc. about 2000 acres of village forest have been protected by the village forest development committee (VFDC) in cooperation with the forest officials. To protect the environment from cutting of trees they have formed groups to guard the jungle every day. They have also imposed fine on violation of the rules. In addition to it, the VFDC also grow saplings through raising nursery. The villagers also given training to raise nurseries at their own and initiate planning programmes in barren and infertile lands.

Programme on disaster preparedness & Emergency Relief Measures

Programme on disaster preparedness

Natural as well as manmade disaster is very much recurring in Odisha. Flood, Cyclone and fire accident etc. are very common and every year the people and this state losing properties and infrastructure of some cores of rupees. For this we consider four initiatives i.e. **(1) disaster preparedness & (2) relief and rehabilitation (3)health checkup (4)Built the houses to the victims of disaster.**

Without support from Odisha state / Central disaster “state / Central disaster management authority” through the collectors, we every year do take up disaster preparedness activity at the community level. Adding to that emergency relief to fire accident victims as well victims of flood is one of our priority and we do take up the same with our own resources.

Emergency Relief Measures

Four In One Clinic gives emergency relief to the victims to people in rural area who are in distress by natural disasters like flood, drought, cyclone, super cyclone, fire etc. Navjivan **Foundation** has distributed food packets, utensils, rice, and polythene to the fire victims of villagers in different blocks. **Four In One Clinic** also encourage blood donation programme by its volunteers through its blood donors network during emergency need. Navjivan Foundation organizes blood donation camps and aware people how a **“drop of blood can save life of millions”**.

Partnership of Navjivan Foundation in government programmes

With associate with government departments, **Four In One Clinic** implements various programme such as pulse polio immunization modified leprosy eradication programme T.B eradication programme, forest protection and management, mission shakti of empowerment of woman etc. Navjivan Foundation also takes most care and concern while complementing these programmes in rural areas. Apart from this the

volunteers of **Four In One Clinic** also co-operate in the aforesaid programme in different camps organized by medical departments from time to time.

Forest management and minor forest product processing

Forest management and minor forest product processing

Village forest development committee functioning in different villages in Odisha & handles the responsibility of forest management and promote plantation programme in hill area where the forests have been completely denuded. They collect honey, leaf, amala, harida, bahada, jhuna and other minor forest products and after proper processing sell in the market to earn some money. **Four In One Clinic** has also taking the marketing responsibility of those product by consulting with local market association.

Exposure visit to Navjivan Foundation

Exposure visit to Navjivan Foundation

Over the year **Four In One Clinic** 's achievement have drawn the attention of other institution in Odisha as well as in other states in the country for its commendable and praiseworthy activities in social development. The college students of different colleges come for exposure to gain practical knowledge and facilitated for micro planning exercise.

Agriculture & Farmers training

Agriculture

For food security of farmers, **Four In One Clinic** is attempting to make them aware and educate under different agricultural development programmes, about the latest and improved technical know-how of their profession through periodical work shop and trainings.

During their training they are taught and encouraged to use **bio-fertilizer** in their fields instead of chemical fertilizer. Besides this for creating water source **Four In One Clinic** also put emphasis on digging well and ponds in the project areas.

As the **Four In One Clinic** main objective is promoting income generation, self-reliance and food security through a sustainable agriculture for rural poor. The ongoing thrust in kitchen gardening has helped a great deal in the provision of food security and to curb the problem of mal-nutrition in rural areas. So in some blocks, the families have been provided with papaya and drumstick plants by **Four in One Clinic** to increase their nutritional status agricultural demonstration farm.

Farmers training

Altogether some farmers club in the project areas in order to avail modern technique of agriculture for more yield they are given training by **Four In One Clinic** from time to time.

During this training, farmers learn about different kind of seasonal crops and multi-cropping system use of green manure and how they can market their products to get a best bargain.

Irrigation through water sources creation

Irrigation through water sources creation

Orissa has experienced frequent drought situation in most part of the state because of irregular monsoon thereby the crops suffer substantially. To evade and the for the survival of paddy crops **Four In One Clinic** has reconstructed water harvesting structure villages level which provide irrigational facilities to hundred acres of land. Apart that in collaboration with no govt. sector organization own funding with supporting of village people.

Minor irrigation and safe drinking water

Minor irrigation and safe drinking water

Minor irrigation facilities were provided to farmers to exchange their standred of living through cultivation in the villages & Gram Panchayats. In this programme small and marginal farmers were identified through farmers club established by farmers. The clients were supported for digging of chuan in their own land for witch their contribution was limited to 25%. The surrounding farmers also encourage by this activity and utilized the water from the chuan for the purpose of agriculture.

The farmers were trained on scientific method of cultivation, preparation of vermin compost pit and use bio fertilizer in their land. Vegetables and other cash crops were also cultivated by the poor farmers to enable them for self-reliant. In this connection regular inputs have been provided by **Four In One Clinic** staffs.

Ensuring food security

Ensuring food security

The cultivated products does not provide food security for the peasants at least for one year even if they manage their family from that it does not provide two meals to each members per day, and sometime the members remain fasting having a meal per day.

So to ensure food security for the rural peasants **Four In One Clinic** has formed farmer club and self help group in the project areas and motivate them to supplement their income by promoting multi-cropping system and to adopt new technology and method in agriculture.

Strengthening food security

Strengthening food security

Agriculture is the major source of livelihood of the people of the state of Odisha. **Four In One Clinic** has given much importance on agriculture from the beginning. As a follow up programme of food and security through people's initiative and minor irrigation through traditional chuan system it extended its agriculture related activities & in blocks. Mostly the farmer's are being organized in these villages to concentrate on agriculture. The farmers were given inputs on modern cultivation and technical knowhow through trainings, meetings, seminars and workshop.

The farmers adopted modern cultivation methods to yield more, which supplement food security. In this respect, resource persons from agricultural, horticulture and krishi vigyan Kendra were invited to encourage them. The farmers were also sensitized on different programmes and facilities near for them by the government.

Tribal Development

Tribal Development

Community health care in underserved tribal areas

“Health is wealth”. Unless a person possesses sound health theirs never does anything for the welfare of society. Realizing this health aspect of community, **Four In One Clinic** undertook several health related programmes from the very beginning. **In the state of Odisha where the health standard of the people is very poor.** The health facilities provided by the govt. in remote and inaccessible areas are inadequate.

Thus the people are deprived of availing health facilities properly. These areas are surrounding by hills and mountains and malaria, HIV, Swain flow is predominantly occur. To create consciousness among the people, **Four In One Clinic** organizes awareness programme at regular intervals on **prevention of malaria, TB, leprosy, diarrhea, HIV/AIDS and other communicable diseases.**

Reproductive and child health programme implemented by **Four In One Clinic** brought a very significant change in minds and attitudes of the people for treatment and cure. After intervention of **Four In One Clinic** the poor people earlier believed in superstition, witch and traditional treatment gradually disappeared in course of time. The objective of the programme is to improve the health standard of the mother and children leading to reduction of IMR & MMR.

Celebration of National and International Days

Celebration of National and International Days

Navjivan Foundation has been observing the national and international days like **World Health day, International literacy day, World Environment day, Human Right Day, Bana Mahostav Day, Road Safety Week, Consumer Welfare Week, World Red Cross Day, National Youth Day, Independence Day** etc. with the active participation of the communities. In this connection demonstrations rallies, public functions have been organized to mark those occasions.

However while dealing with different social issues the cultural group of **Four In One Clinic** also play an important role through street plays. Cultural shows video shows to aware the people.

Navjivan Foundation-Servent Of The Society

People Organization

Organizing people at the grass root level is one of the key elements in the process of development where the role of the people in planning implementation, supervision, monitoring and evaluation is most important. Through this process the base of **Four In One Clinic** has been meticulously extended to ninety seven villages till now.

The communities have seriously and woefully been lagging far behind in terms of most of the crucial human development indicators such as levels of literacy. Gross production and market accessibility etc. while the perception of discrimination and developments widespread among the communities, there has been no sincere and systematic efforts to analyze the socio-economic and educational condition of the community.

As a major objective **Four In One Clinic** communities were mobilized for their all round development where **Four In One Clinic** is currently concentrated its efforts to strengthen the community organizations at the village level. It has been taken a number of initiatives in several spheres to materialize the process. Identification and sustainable utilization of local resources, agriculture, and employment generating, health and education promotion, ensuring protection of rights, creation of basic public facilities are the ultimate vision of **Four In One Clinic** intervention.

To guide the community organization in a proper way the villages animator are appointed at each cluster by **Four In One Clinic**, who played a pivotal role in identifying needs and guiding the communities towards the fulfillment of their socio-economic situation as well as a better standard of living.

The committees which were organized under the aegis of **Four In One Clinic** i.e. village development committee (VDCs), self help groups (SHGs), forest development committee, village water and sanitation committees and farmers clubs in different areas. The committee so formed to identify and prioritize their pertaining to their basic problems they are facing.

Conclusion

Conclusion

In this way the success of **Navjivan Foundation & its Four In One Clinic** has become an eye opener for others. Its achievement highlighted an important lacuna in the present system of our society. Still it is endeavoring its utmost to evade the harsh economic reality in the rural areas. Besides these more self-introspection is needed to resolve conflicts and overcome situation of obstruction and interruptions coming in the way of our progress. Thus by learning from trials and stresses, triumphs and turmoil's, organization's achievement during this has certainly ignites hopes & aspirations more in the day to come.
